SUMMARY

I am a financial reporter turned UX designer with 1 year of visual and UX design, 4 years of data analysis, and 5 years of self-taught web design (HTML/CSS) experience. I use research analysis, visuals, and design feedback to create functional and appealing products.

WORK EXPERIENCE

CHRISTINA LU
PRODUCTION DESIGNER (FREELANCE) // NOVEMBER 2019

Worked on a visual design concept for a client to reflect an updated professional/medicinal page of the website while adding in the content provided in a way that is easy to digest as a reader.

PIONEER SQUARE ADVISORS
SENIOR FINANCIAL REPORTING ASSOCIATE // JANUARY 2019 - PRESENT

Effectively communicates and collaborates with internal, external, and cross-functional teams to handle client obligations resulting in happy clients. Solves clients' problems by creating custom data reports with data displayed in a way that is intuitive for the client to understand.

FINANCIAL REPORTING ASSOCIATE // OCTOBER 2016 - DECEMBER 2018

Updated various accounting systems and reports simultaneously to complete projects and tasks by their respective deadlines using an agile iterative process. Handled transactions and sensitive data with care by documenting complex workflow.

BLOC
UX DESIGN APPRENTICESHIP // AUGUST 2018 - JUNE 2019

Applied an end to end product design process to build desktop and mobile designs using research data, product strategy, iterative design, and testing to provide clear solutions to pain points. Met with a senior level designer weekly to get current design critiques and use feedback necessary for future iterations.
